SC Škofja Loka - Project overview

At SC Škofja Loka, at the beginning of the project we talked about how to approach the project implementation to carry out all the necessary activities on time during these difficult times and circumstances of the covid-19 pandemics.

COVID-19 situation

- Slovenia eases more restrictions, but the epidemic was extended for another 30 days until 17 June
- schools have been open to all students since 17. May 2021
- we can cross the border with the so-called certificate RVT (recovered from Covid-19, been vaccinated or tested) along with the restrictions of the country being crossed.
- by the end of June 2021 we should get Digital Green Certificates, administred by the EU Commission

COVID-19 Tracker - Updated on Monday, May 24, 2021 at 09:39 STATS
