DO TREES TRAVEL?!

ALPTREES

Exhibition of the wooden products from Invasive Non-Native and overlooked Native Wood Species

Opening Exhibition: 15.2.2022 at 18:00 hours, Art & Crafts Centre DUO Škofja Loka

Exhibition will be open until 25th of March 2022.

Invasive Non-Native Tree Species. To use their wood or not?

Overlooked Native wood species. Are they suitable for making wooden products?

DO TREES TRAVEL?!

ALPTREES Exhibition of the wooden products from Invasive Non-Native and overlooked Native Wood Species

Opening Exhibition: 15.2.2022 at 18:00 hours, Art & Crafts Centre DUO Škofja Loka

At the opening of the ALPTREES Exhibition, the **students presented what brought to them participation in the ALPTREES project** and in the implementation of the Exhibition:

"We are proud to have managed to
produce what we planned."

"I especially liked the group work."

"We got a chance to prove ourselves!,,

"I have proved to myself that
the doubts of others must not stop me,
that my goals can be higher.,,

DO TREES TRAVEL?!

- The students during the process of planning and development of wooden products got **acquainted with a wide range of characteristic of NNT Species that travelled to us: Black locust, Red oak, Ash-leaved maple, Tree of heaven.**
- Students **acquainted also with the overlooked Native Tree species**, that are rarely used in making wood products: **Silver birch, Scots pine, Wilde cherry, Black alder.**

DO TREES TRAVEL?!

ALPTREES Exhibition of the wooden products from Invasive Non-Native and overlooked Native Wood Species

DO TREES TRAVEL?!
